## Currenex and Wall Street Systems Improve Post-Trade STP

June 26, 2006 - LONDON – Currenex, Inc. added Wall Street Systems, a leading provider of global treasury and capital markets solutions and services, to its list of partners within Foreign Exchange markets. The partnership will provide joint customers of Currenex and Wall Street Systems seamless straight-through processing (STP) integration that will increase the speed of transaction processing while reducing processing costs.

The integrated service offering allows customers to leverage the full array of liquidity offered by Currenex including over 60 banks and the most ECNs available on a single platform. Foreign exchange trades executed on Currenex flow seamlessly into The Wall Street System® for transaction processing, risk management and settlement. Trades automatically flow into The Wall Street System without manual processes, which enables joint clients of Currenex and Wall Street Systems to benefit from improved STP.

Clifford M. Lewis, CEO and Chairman of Currenex, said, "We're delighted to provide this technology with Wall Street Systems. The flexibility and security of our STP solutions will support the continued expansion of our core business—providing tangible benefits to leading financial institutions."

Currenex FXintegrate provides members with a wide variety of integration choices through open, flexible, standards-based solutions, in order to support the complete FX trading life cycle and workflow process.

*Currenex®, Inc. is the leading technology provider of foreign exchange Spot, Forward, and Swaps trading solutions for global financial institutions, funds, corporations, banks and other market participants. Offering Executable Streaming Prices (ESP™), Request For Streams (RFS), Benchmark Trading, Algorithmic Trading, and complete Prime Brokerage functionality with fully integrated Straight Through Processing (STP), Currenex connects more than 60 global banks to a superior electronic trading network, making Currenex one of the deepest liquidity pools in Forex. Accessed through a global electronic communications network, Currenex patented technology is also available to users in privately-branded solutions. Additional information can be found at [www.currenex.com](http://www.currenex.com)*

Rick Schumacher, director of FX Products at Wall Street Systems, added, "A number of our clients have become active on the Currenex platform, so it makes sense to offer a real-time packaged STP solution that is standardized and easy to implement. We continue to work with our clients to streamline their workflow wherever necessary."

### **About Wall Street Systems**

#### **Wall Street Systems – The Leader in Global Treasury & Capital Markets Technology**

Wall Street Systems provides a comprehensive range of solutions that deliver tangible business benefits to the world's leading financial institutions and corporations.
